

jPDFFields™

Java class library – interactive PDF forms

Merge fields data into interactive forms
Extract fields data from interactive forms
Integrate into your Java or Web Applications

jPDFFields is a Java library to work with interactive PDF forms in AcroForm and XFA formats, allowing your application to get and set field values, and import and export from and to FDF, XFDF and XDP formats. jPDFFields can flatten fields in a PDF document.

- Load PF documents from files, network drives, URLs or input streams
- Work with PDF forms in both AcroForm or XFA formats
- Export fields data to FDF, XML (XFDF) or XDP files
- Import fields data from FDF, XML or XDP files
- Flatten form fields
- Reset fields to their default value
- Support for barcode fields
- Save updated PDF files as file, as OutputStream or a ServletOutputStream
- 100% Java –your application remains platform independent
- No additional drivers or software required

[Live Demo, Evaluation Download, Documentation, Code Samples available on our website.](#)

Highly Focused Company

Proven Industry Leader

Engineered proprietary PDF engine

Expansive set of PDF solutions

Fully Portable

100% Java

Platform Independent

Runs on Windows, Linux, Unix, Mac and browser

Quality and Performance

- Highest levels of performance
- Proven robust and reliable
- Trusted mature technology
- Deployed around the world

System Requirements

- Java 1.4.2 or higher
- 128 MB of RAM
- Windows, Linux, Unix, Mac, Browser

Easy Integration

- Simple and intuitive API
- Integrate with a few lines of code
- No third party software required
- Backed by Qoppa expert support

Cost-effective Licensing

- Starts at \$400 per CPU-pair
- Volume discounts
- OEM and Distribution licenses
