History

Since its founding in 1990, the Rollins School of Public Health (RSPH) has become a leader in public health training and research. Currently ranked 6th in the nation by U.S. News and World Report, RSPH is fully accredited by the Council of Education for Public Health, and a member of the Association of Schools of Public Health (ASPH).

Academics

RSPH has more than 900 students pursuing masters degrees and more than 100 students pursuing doctoral degrees. There are over 180 full-time faculty and 200 adjunct faculty, many from the CDC, CARE, and the American Cancer Society. The school offers six academic departments: Behavioral Sciences and Health Education, Biostatistics and Bioinformatics, Environmental Health, Epidemiology, Health Policy and Management, and Global Health.

Buildings

The *Grace Crum Rollins (GCR) Building* first opened in 1995 and in the fall of 2010, the *Claudia Nance Rollins (CNR) Building* opened. A glass-walled pedestrian bridge connects the two buildings. CNR, a 9-story building, is built to the university's environmental stewardship standards achieving Leadership in Energy and Environmental Design Certification through the U.S. Green Building Council. CNR features wet and dry research labs, The Office of the Dean, and community partner offices for organizations including CDC, the Carter Center, the American Cancer Society, the Arthritis Foundation, and CARE.
